## PROFESSIONAL SUMMARY

I'm a UI/UX designer with six years of experience crafting digital products for startups and scale-ups. My design process combines user research, wireframing, high-fidelity prototyping in Figma, and developer handoff. I've shipped products in SaaS, fintech, and healthcare verticals. I'm comfortable running discovery workshops, presenting to stakeholders, and iterating fast on feedback. I take accessibility (WCAG 2.1 AA) seriously and make sure every design I ship is developer-friendly. I work well in both Agile and lean teams.
